4. Nothing in this section is intended to contravene any existing treaties, laws, trade agreements, or regulations of the United States or subsequent trade agreements entered into between any foreign countries and the state or the United States.

5. Any authority subject to the provisions of this section shall be authorized to establish rules and regulations for the effective administration of this section, provided however, nothing in this section shall be interpreted to require a contractor to certify that the iron or steel used in a road or

§ 2879-a. Comptroller approval of contracts. 1. Except as set forth in subdivision three of this section, where the comptroller determines pursuant to his or her authority to supervise the accounts of public corporations, that contracts or categories of contracts in excess of one million dollars (a) to be awarded by a state authority to a single source, a sole source or pursuant to any other method of procurement that is not competitive, or (b) which are to be paid in whole or in part from monies appropriated by the state to a state authority for such contractual expenditure, require supervision in the form of prior review and approval of such contracts, and the comptroller so notifies such authority of such determination, then any such contract entered into subsequent to such notification shall be submitted to the comptroller for his or her approval and shall not be a valid enforceable contract unless it shall first have been approved by the comptroller. Such notification shall identify the process for submission, the categories of contracts at issue and the time period for which such submission is to take place. The comptroller shall promulgate such rules and regulations as may be necessary to carry out his or her responsibilities under this section, including but not limited to the standards for determining which contracts will be subject to his or her review and for approving such contracts.

2. Where the comptroller, pursuant to subdivision one of this section, has notified a state authority that any contract or category of contracts shall be subject to his or her approval, such authority shall include or cause to be included in each such contract a provision informing the other party that such contract is subject to the comptroller's approval pursuant to the comptroller's authority to supervise the accounts of public corporations. If the comptroller has not approved or disapproved any contract subject to his or her approval within ninety days of submission to his or her office, such contract shall become valid and enforceable without such approval.

3. This section shall not apply to: (a) contracts entered into for the issuance of commercial paper or bonded indebtedness, other than contracts with the state providing for the payment of debt service subject to an appropriation; (b) contracts entered into by an entity established under article ten-c of this chapter that are for: (i) projects approved by the department of health or the public health council in accordance with articles twenty-eight, thirty-six or forty of the public health law or article seven of the social services law; (ii) projects approved by the office of mental health, the office of mental retardation and developmental disabilities, or the office of alcoholism and substance abuse services in accordance with articles sixteen, thirty-one, or thirty-two of the mental hygiene law; (iii) services, affiliations or joint ventures for the provision or administration of health care services or scientific research; (iv) payment for direct health care services or goods used in the provision of health care services; or (v) participation in group purchasing arrangements; (c) contracts entered into for the procurement of goods, services or both goods and services made to meet emergencies arising from unforeseen causes or to effect repairs to critical infrastructure that are necessary to avoid a delay in the delivery of critical services that could compromise the public welfare; (d) contracts of purchase or sale of energy, electricity or ancillary services made by an authority on a recognized market

for goods, services, or commodities in question in accordance with standard terms and conditions of purchase or sale at a market price; (e) contracts for the purchase, sale or delivery of power or energy, fuel, costs and services ancillary thereto, or financial products related thereto, with a term of less than five years; and (f) contracts for the sale or delivery of power or energy and costs and services ancillary thereto for economic development purposes pursuant to title one of article five of this chapter or article six of the economic development law, provided, however, that the authority shall file copies of any such contract with the comptroller within sixty days after the execution of such contract.

4. The provisions of this section do not grant or diminish any power or right to review contracts beyond or from that which the comptroller may have pursuant to his or her authority to supervise the accounts of public authorities. If any provisions of this section or its application to any person or circumstance is held invalid by a court of last resort, then this section shall be deemed to be invalid in its entirety.

§ 2879-b. Labor peace. 1. As used in this section:

(e) "Public authority" shall mean a state public authority.

2. 3. Any contractor or subcontractor covered by subdivision two of this section shall incorporate the terms of the labor peace agreement in any

Public Authorities Law
Articles 1 & 9

contract, subcontract, lease, sublease, operating agreement, concessionaire agreement, franchise agreement or other agreement or instrument giving a right to any person or entity to own or operate a hotel or convention center.

4. Notwithstanding any provision of this section, a public authority may enter into an agreement or contract wherein the public authority has a substantial proprietary interest in a covered project without a contractor entering into a labor peace agreement, if the authority determines that the project would not be able to go forward if a labor peace agreement was required, or the costs of the project to the public authority would be substantially increased by such requirement. Such a determination shall be supported by a written finding by the public authority setting forth the specific basis for such determination, which may include experience with similar projects, earlier requests for proposal for the same project, or a detailed evaluation of potential bidders. Such written determination shall be included in any public materials provided to any board or agency official in connection with the project and shall be maintained by the authority.

(2) The public authority makes a determination that the goods or services are necessary for the public authority to perform its functions and that, absent such an exemption, the public authority would be unable to obtain the goods or services for which the contract is offered. (b) Such facts and conditions may include, but shall not be limited to, the following when:

Any time taken to satisfy or rectify any of the facts or conditions described in subdivision three (except for subparagraph (iv) of paragraph (b) of subdivision three) of this section shall extend the date by which contract payment must be made in order for the corporation not to become liable for interest payments by an equal period of time.

Public Authorities Law

When a corporation fails to notify a contractor of such defects or suspected improprieties within fifteen calendar days of receiving the invoice, the number of days allowed for payment of the corrected proper invoice will be reduced by the number of days between the fifteenth day and the day that notification was transmitted to the contractor. If the corporation, in such situations, fails to provide reasonable grounds for its contention that a defect or impropriety exists, the date by which contract payment must be made in order for the corporation not to become liable for interest payments shall be calculated from the date of receipt of an invoice.

10. 11. Annual report. (a) Each corporation shall annually prepare a report on the scope and implementation of its prompt payment policy which shall include, but not be limited to:

(b) With respect to the court action or other legal processes referred to in paragraph (a) of this subdivision, any interest obligation incurred by a corporation after the date specified therein pursuant to any provision of law other than this section shall be determined as prescribed by such separate provision of law, shall be paid as directed by the court, and shall be paid from any source of funds available for that purpose.

authority's operative policy and instructions regarding the use, awarding, monitoring and reporting of contracts for the disposal of property, and (b) designate a contracting officer who shall be responsible for the public authority's compliance with, and enforcement of, such guidelines. Such guidelines shall be consistent with, and shall require the public authority's contracting activities to comply with this section, the authorities enabling legislation and any other applicable law for the disposal of property, except that such guidelines may be stricter than the provisions of this section, the authorities enabling legislation and any other applicable law for the disposal of property if the public authority determines that additional safeguards are necessary to assure the integrity of its disposition activities. Guidelines approved by the public authority shall be annually reviewed and approved by the governing body of the public authority. On or before the thirty-first day of March in each year, the public authority shall file with the comptroller a copy of the guidelines most recently reviewed and approved by the public authority, including the name of the public authority's designated contracting officer. At the time of filing such guidelines with the comptroller, every public authority shall also post such guidelines on the public authority's internet website. Guidelines posted on the public authority's internet website shall be maintained on such website at least until the procurement guidelines for the following year are posted on such website.

Provided, however, that no disposition of real property, or any interest in real property, shall be made unless an appraisal of the value of such property has been made by an independent appraiser and included in the record of the transaction, and, provided further, that no disposition of any other property, which because of its unique nature or the unique circumstances of the proposed transaction is not readily valued by reference to an active market for similar property, shall be made without a similar appraisal.

4. Sales by the commissioner of general services. When it shall be deemed advantageous to the state, any public authority may enter into an agreement with the commissioner of general services where under such commissioner may dispose of property of such public authority under terms and conditions agreed to by the public authority and the commissioner of general services. In disposing of any such property of a public authority, the commissioner of general services shall be bound by the terms of this title and references to the contracting officer shall be deemed to refer to such commissioner.

5. Validity of deed, bill of sale, lease, or other instrument. A deed, bill of sale, lease, or other instrument executed by or on behalf of any public authority, purporting to transfer title or any other interest in property of a public authority under this title shall be conclusive evidence of compliance with the provisions of this title insofar as concerns title or other interest of any bona fide grantee or transferee who has given valuable consideration for such title or other interest and has not received actual or constructive notice of lack of such compliance prior to the closing.

6. Bids for disposal; advertising; procedure; disposal by negotiation; explanatory statement. a. All disposals or contracts for disposal of property of a public authority made or authorized by the contracting officer shall be made after publicly advertising for bids except as provided in paragraphs c and f of this subdivision.

b. Whenever public advertising for bids is required under paragraph a of this subdivision:

(i) the advertisement for bids shall be made at such time prior to the disposal or contract, through such methods, and on such terms and conditions as shall permit full and free competition consistent with the value and nature of the property;

Public Authorities Law
Articles 1 & 9

(iii) the award shall be made with reasonable promptness by notice to the responsible bidder whose bid, conforming to the invitation for bids, will be most advantageous to the state, price and other factors considered; provided, that all bids may be rejected when it is in the public interest to do so.

c. Disposals and contracts for disposal of property may be negotiated or made by public auction without regard to paragraphs a and b of this subdivision but subject to obtaining such competition as is feasible under the circumstances, if:

(i) the personal property involved has qualities separate from the utilitarian purpose of such property, such as artistic quality, antiquity, historical significance, rarity, or other quality of similar effect, that would tend to increase its value, or if the personal property is to be sold in such quantity that, if it were disposed of under paragraphs a and b of this subdivision, would adversely affect the state or local market for such property, and the estimated fair market value of such property and other satisfactory terms of disposal can be obtained by negotiation;

(ii) the fair market value of the property does not exceed fifteen thousand dollars;

(iii) bid prices after advertising therefor are not reasonable, either as to all or some part of the property, or have not been independently arrived at in open competition;

(iv) the disposal will be to the state or any political subdivision, and the estimated fair market value of the property and other satisfactory terms of disposal are obtained by negotiation; or

(v) under those circumstances permitted by subdivision seven of this section; or

(vi) such action is otherwise authorized by law.

d. (i) An explanatory statement shall be prepared of the circumstances of each disposal by negotiation of:

(A) any personal property which has an estimated fair market value in excess of fifteen thousand dollars;

(B) any real property that has an estimated fair market value in excess of one hundred thousand dollars, except that any real property disposed of by lease or exchange shall only be subject to clauses (C) and (D) of this subparagraph;

(C) any real property disposed of by lease, if the estimated annual rent over the term of the lease is in excess of fifteen thousand dollars;

(D) any real property or real and related personal property disposed of by exchange, regardless of value, or any property any part of the consideration for which is real property.

(ii) An appraisal of the fair market value of such property has been made by an independent appraiser and included in the record of the transaction;

(iii) The fair market value of such real property is greater than fifteen thousand dollars but not greater than seventy-five thousand dollars;

(iv) Such real property was improved prior to April first, nineteen hundred ninety-two under a municipal permit or a permit issued pursuant to section one hundred of the canal law, thereby creating an encroachment on canal corporation real property;

(v) The purchaser of such real property is, or will be, the owner of the improvement that either fully or partially encroaches on canal corporation real property; and

(vi) The consideration paid for such real property will be not less than the fair market value of the real property exclusive of the value, fair market or otherwise, of the encroaching improvements.

f. Notwithstanding anything to the contrary in this section, disposals for use of the thruway authority's fiber optic system, or any part thereof, may be made through agreements based on set fees that shall not require public auction, provided that:

i. the thruway authority has determined the disposal of such property complies with all applicable provisions of this chapter;

ii. the thruway authority has determined that disposal of such property is in the best interest of the thruway authority;

iii. the set fees established by the thruway authority for use of the fiber optic system, or part thereof, shall be based on an independent appraisal of the fair market value of the property; and

iv. any public authority, state agency, municipality, not-for-profit hospital organized under section forty-three hundred one of the insurance law, public library, or institution of higher education located in New York state shall be required only to pay the actual cost of providing for use of the fiber optic system, but not exceeding the fair market value determined pursuant to subparagraph (iii) of this paragraph. For purposes of this paragraph, "public authority" shall refer to entities defined in section two of the public authorities law. For purposes of this paragraph, "institution of higher education" shall refer to entities as defined in subdivisions two and three of section six hundred one of the education law. Disposals of the fiber optic system, or any part thereof, through agreements based on set fees shall not require the explanatory statements required by this section. Any disposal of property, contract for disposal of

Public Authorities Law

(ii) the purpose of the transfer is within the purpose, mission or governing statute of the public authority; or

Denial by the governor shall take the form of a signed certification by the governor. Denial by either house of the legislature shall take the form of a resolution by such house. The governor and each house of the legislature shall take any such action within sixty days of receiving notification of such proposed transfer during the months of January through June, provided that if the legislature receives notification of a proposed transfer during the months of July through December, the legislature may take any such action within sixty days of January first of the following year. Provided, however, that with respect to a below market transfer by a local authority that is not within the purpose, mission or governing statute of the local authority, if the governing statute provides for the approval of such transfer by the executive and legislative branches of the political subdivision in which such local authority resides, and the transfer is of property obtained by the authority from that political subdivision, then such approval shall be sufficient to permit the transfer.

b. In the event a below fair market value asset transfer is proposed, the following information must be provided to the authority board and the public:

(i) a full description of the asset;

(ii) an appraisal of the fair market value of the asset and any other information establishing the fair market value sought by the board;

(vi) the names of other private parties who have made an offer for such asset, the value offered, and the purpose for which the asset was sought to be used.

c. Before approving the disposal of any property for less than fair market value, the board of an authority shall consider the information described in paragraph b of this subdivision and make a written determination that there is no reasonable alternative to the proposed below-market transfer that would achieve the same purpose of such transfer.

Adjudication of the liability imposed upon owners by this section shall be by the entity having jurisdiction over violations of the rules and regulations of the public authority serving the notice of liability or where authorized by an administrative tribunal and all violations shall be heard and determined in the county in which the violation is alleged to have occurred, or in New York city and upon the consent of both parties, in any county within New York city in which the public authority operates or maintains a facility, and in the same manner as charges of other regulatory violations of such public authority or pursuant to the rules and regulations of such administrative tribunal as the case may be.

9. If an owner receives a notice of liability pursuant to this section for any time period during which the vehicle was reported to the police department as having been stolen, it shall be a valid defense to an allegation of liability for a violation of toll collection regulations that the vehicle had been reported to the police as stolen prior to the time the violation occurred and had not been recovered by such time. If an owner receives a notice of liability pursuant to this section for any time period during which the vehicle was stolen, but not as yet reported to the police as having been stolen, it shall

Public Authorities Law
Articles 1 & 9

be a valid defense to an allegation of liability for a violation of toll collection regulations pursuant to this section that the vehicle was reported as stolen within two hours after the discovery of the theft by the owner. For purposes of asserting the defense provided by this subdivision it shall be sufficient that a certified copy of the police report on the stolen vehicle be sent by first class mail to the court or other entity having jurisdiction.

10. An owner who is a lessor of a vehicle to which a notice of liability was issued pursuant to subdivision seven of this section shall not be liable for the violation of the toll collection regulation provided that he or she sends to the public authority serving the notice of liability and to the court or other entity having jurisdiction a copy of the rental, lease or other such contract document covering such vehicle on the date of the violation, with the name and address of the lessee clearly legible, within thirty days after receiving the original notice of liability. Failure to send such information within such thirty day time period shall render the lessor liable for the penalty prescribed by this section. Where the lessor complies with the provisions of this subdivision, the lessee of such vehicle on the date of such violation shall be deemed to be the owner of such vehicle for purposes of this section and shall be subject to liability for the violation of toll collection regulations, provided that the public authority mails a notice of liability to the lessee within ten days after the court, or other entity having jurisdiction, deems the lessee to be the owner. For purposes of this subdivision the term "lessor" shall mean any person, corporation, firm, partnership, agency, association or organization engaged in the business of renting or leasing vehicles to any lessee under a rental agreement, lease or otherwise wherein the said lessee has the exclusive use of said vehicle for any period of time. For purposes of this subdivision, the term "lessee" shall mean any person, corporation, firm, partnership, agency, association or organization that rents, leases or contracts for the use of one or more vehicles and has exclusive use thereof for any period of time.

11. Except as provided in subdivision ten of this section, if a person receives a notice of liability pursuant to this section it shall be a valid defense to an allegation of liability for a violation of toll collection regulations that the individual who received the notice of liability pursuant to this section was not the owner of the vehicle at the time the violation occurred. If the owner liable for a violation of toll collection regulations pursuant to this section was not the operator of the vehicle at the time of the violation, the owner may maintain an action for indemnification against the operator.

12. "Electronic toll collection system" shall mean a system of collecting tolls or charges which is capable of charging an account holder the appropriate toll or charge by transmission of information from an electronic device on a motor vehicle to the toll lane, which information is used to charge the account the appropriate toll or charge. In adopting procedures for the preparation and mailing of a notice of liability, the public authority having jurisdiction over the toll facility shall adopt guidelines to ensure adequate and timely notice to all electronic toll collection system account holders to inform them when their accounts are delinquent. An owner who is an account holder under the electronic toll collection system shall not be found liable for a violation of this section unless such authority has first sent a notice of delinquency to such account holder and the account holder was in fact delinquent at the time of the violation.

Public Authorities Law
Articles 1 & 9

13. Nothing in this section shall be construed to limit the liability of an operator of a vehicle for any violation of toll collection regulations.

14. Notwithstanding any other provision of law, all photographs, microphotographs, videotape or other recorded images prepared pursuant to this section shall be for the exclusive use of a public authority in the discharge of its duties under this section and shall not be open to the public nor be used in any court in any action or proceeding pending therein unless such action or proceeding relates to the imposition of or indemnification for liability pursuant to this section. The public authority shall not sell, distribute or make available in any way, the names and addresses of electronic toll collection system account holders, without such account holders' consent to any entity that will use such information for any commercial purpose provided that the foregoing restriction shall not be deemed to preclude the exchange of such information between any entities with jurisdiction over and or operating a toll highway bridge and/or tunnel facility.
