## INDEPENDENT AUDITORS' REPORT

February 28, 2012

Board of Directors  
City of Dunkirk Industrial Development Agency  
342 Central Avenue  
Dunkirk, New York 14048

We have audited the accompanying financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of the City of Dunkirk Industrial Development Agency ("DIDA"), as of and for the year ended December 31, 2011, which collectively comprise the City of Dunkirk Industrial Development Agency's basic financial statements as listed in the table of contents. These financial statements are the responsibility of the City of Dunkirk Industrial Development Agency's management. Our responsibility is to express an opinion on these financial statements based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, each major fund, and the aggregate remaining fund information of the City of Dunkirk Industrial Development Agency as of December 31, 2011, and the respective changes in financial position, and cash flows, where applicable, thereof, for the year then ended in conformity with accounting principles generally accepted in the United States of America.

In accordance with *Government Auditing Standards*, we have also issued our report dated February 28, 2012, on our consideration of the City of Dunkirk Industrial Development Agency's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing,

and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* and should be considered in assessing the results of our audit.

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis on pages 3 through 4 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historic context. We have applied certain limited procedures to the required supplementary information in accordance with standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Our audit was conducted for the purpose of forming an opinion on the financial statements that collectively comprise the City of Dunkirk Industrial Development Agency's basic financial statements. The Industrial Development Agency Annual Financial Report is the responsibility of management and was derived from and relate directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated in all material respects in relation to the financial statements as a whole.

**CITY OF DUNKIRK INDUSTRIAL DEVELOPMENT AGENCY  
MANAGEMENT'S DISCUSSION AND ANALYSIS  
FOR THE YEAR ENDED DECEMBER 31, 2011**

This discussion and analysis of the City of Dunkirk Industrial Development Agency's (Agency) financial performance provides an overview of the Agency's financial activities for the year ended December 31, 2011. This document should be read in conjunction with the Agency's financial statements which begin on page 5.

**FINANCIAL HIGHLIGHTS**

- The Agency's net assets (deficit) decreased \$1,617 as a result of this year's activity.

**USING THIS REPORT**

The annual report consists of a series of financial statements. The statement of net assets (deficit) and the statement of activities provide information regarding the Agency as a whole and present a longer-term view of the Agency's finances. Financial statements for each fund start on page 7. For governmental activities, these statements show how services were financed in the overall operation of the Agency in greater detail than the Agency-wide financial statements.

**REPORTING THE AGENCY AS A WHOLE**

The Statement of Net Assets and Statement of Activities

The statement of net assets (deficit) and statement of activities show information about the Agency as a whole. These statements include all assets and liabilities of the Agency using the accrual basis of accounting which is used by most private-sector companies. All of the current year's revenues and expenses are taken into account regardless of when cash is received or paid.

These two statements report the Agency's net assets (deficit) and the changes to them. The Agency's net assets (deficit) – the difference between assets and liabilities – is a way to measure the Agency's financial health, or financial position. Over time, increases or decreases in the Agency's net assets (deficit) are one indicator of whether its financial health is improving or deteriorating.

In the statement of net assets (deficit) and the statement of activities, the Agency reports all its basic services as governmental activities. These services are primarily economic development.

## **REPORTING THE CITY'S MOST SIGNIFICANT FUNDS**

### Fund Financial Statements

Our discussion and analysis of the Agency's major fund begins on page 7 and provide detail of the Agency's most significant fund on an individual basis rather than the Agency taken as a whole. Some funds are required to be established by state or local law or by the nature of the federal and state funding for their operation. Currently the Agency only utilizes a single governmental fund.

### Governmental Funds

The sole fund of the Agency is considered a governmental fund. This Section focuses on how revenue flows into and out of this fund and the balance of the fund at year-end which is available for future spending. The fund is reported using the modified accrual basis of accounting which measures cash and financial assets that can be readily converted to cash. The governmental fund statements provide a detailed short-term view of the Agency's general operations and the basic services it provides. This information helps determine the financial resources that can be spent to finance Agency programs. The relationship between the governmental activities (accrual basis) and the governmental funds (modified accrual basis) is provided in reconciliations on pages 8 and 10.

## **CONTACTING THE AGENCY'S FINANCIAL MANAGEMENT**

This financial report is designed to provide our citizens, customers, and creditors with a general overview of the Agency's finances and to show the Agency's accountability for the money it receives. If you have any questions or need additional information, contact Steve Neratko, Director of Development, City Hall, 342 Central Avenue, Dunkirk, New York 14048.

RECONCILIATION OF THE BALANCE SHEET  
TO THE STATEMENT OF NET ASSETS (DEFICIT)  
GOVERNMENTAL FUNDS  
DECEMBER 31, 2011

---

Fund balances - total governmental funds	\$	44
Amounts reported for governmental activities in the statement of activities are different because:		
Long-term liabilities applicable to the Agency's governmental funds are not due and payable in the current period and accordingly are not reported as fund liabilities. Interest on long-term debt is not accrued in the governmental funds, but rather is recognized when due. All liabilities - both current and long-term - are reported in the statement of net assets. Long-term liabilities amounted to \$100 and accrued interest payable on long-term liabilities amounted to \$165.		(265)
Net deficit of governmental activities	\$	(221)

See notes to financial statements

**CITY OF DUNKIRK INDUSTRIAL DEVELOPMENT AGENCY  
NOTES TO FINANCIAL STATEMENTS  
YEAR ENDED DECEMBER 31, 2011**

---

**NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES**

The basic financial statements of the City of Dunkirk Industrial Development Agency (Agency) have been prepared in conformity with generally accepted accounting principles (GAAP) as applied to government units. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial reporting principles. The more significant of the Agency's accounting policies are described below.

**A. Reporting Entity**

The reporting entity of the Agency is based on Criteria set forth by GASB Statement 14, *The Financial Reporting Entity*. The financial reporting entity consists of the primary government, organizations for which the primary government is financially accountable and other organizations for which the nature and significance of their relationship with the primary government are such that exclusion would cause the reporting entity's financial statements to be misleading or incomplete.

**1. Nature of the Organization**

The City of Dunkirk Industrial Development Agency was established by the enactment of Section 890-a of the General Municipal Law, effective June 17, 1971, as a special act of the New York State Legislature. The Agency is authorized under the Act to issue bonds to promote the economic and industrial development of the State. The bonds are secured by pledges of any rents, revenues and receipts as well as a lien on and a security interest in the projects being promoted. Neither the Agency nor the City of Dunkirk shall be held liable for repayment of these bonds out of any funds other than those pledged by the Agency. Members of the Board of Directors of the Agency are appointed by and designated to serve at the pleasure of the City's Common Council. The City of Dunkirk Industrial Development Agency is a component unit of the City of Dunkirk and, accordingly, is included in the City's financial statements as a discretely presented component unit.

**B. Basis of presentation:**

**1. Agency-wide statements:**

The Statement of Net Assets (Deficit) and the Statement of Activities present financial information about the Agency's governmental activities. These statements include the financial activities of the overall governmental entity in its entirety, except those that are fiduciary.

**2. Fund financial statements:**

The fund statements provide information about the Agency's funds, including fiduciary funds (when applicable). Currently, the Agency maintains a single governmental fund. The emphasis of fund financial statements is on this governmental fund.

The Agency reports the following major governmental fund:

General Fund: This is the Agency's primary operating fund. Currently, the general fund is the only fund of the Agency.

**CITY OF DUNKIRK INDUSTRIAL DEVELOPMENT AGENCY  
NOTES TO FINANCIAL STATEMENTS  
YEAR ENDED DECEMBER 31, 2011  
(Continued)**

---

**NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES, continued**

**C. Measurement focus and basis of accounting**

The Agency-wide financial statements are reported using the economic resources management focus and the accrual basis of accounting. Revenues are recorded when earned and expenses are recorded at the time liabilities are incurred, regardless of when the related cash transaction takes place. Nonexchange transactions, in which the Agency gives or receives value without directly receiving or giving equal value in exchange, may include grants and donations. On an accrual basis, revenue is recognized in the fiscal year for which the revenue is earned. Revenue from grants and donations is recognized in the fiscal year in which all eligibility requirements have been satisfied.

The governmental fund statements are reported using the current financial resources management focus and the modified accrual basis of accounting. Under this method, revenues are recognized when measurable and available. The Agency considers all revenues reported in the governmental funds to be available if the revenues are collected within 90 days after the end of the fiscal year.

Expenditures are recorded when the related fund liability is incurred, except for principal and interest on general long-term debt or claims and judgments, which are recognized as expenditures to the extent they have matured. General capital asset acquisitions are reported as expenditures in governmental funds.

**D. Cash and Cash Equivalents**

The Agency's cash and cash equivalents consists of cash on hand, demand deposits, and short-term investments with original maturities of three months or less from date of acquisition. New York State law governs the Agency's investment policies. Resources must be deposited in FDIC-insured commercial banks or trust companies located within the State. Permissible investments include obligations of the United States Treasury, United States Agencies, repurchase agreements and obligations of New York State or its localities. Collateral is required for demand and time deposits and certificates of deposit not covered by FDIC insurance. Investments are stated at fair value.

**E. Estimates**

The preparation of the financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of revenues, expenditures, assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and during the reported period. Actual results could differ from those estimates and those differences could be significant.

**CITY OF DUNKIRK INDUSTRIAL DEVELOPMENT AGENCY**  
**NOTES TO FINANCIAL STATEMENTS**  
**YEAR ENDED DECEMBER 31, 2011**  
**(Continued)**

---

**NOTE 2 - EXPLANATION OF CERTAIN DIFFERENCES BETWEEN GOVERNMENTAL FUND STATEMENTS AND AGENCY-WIDE STATEMENTS**

Due to the differences in the measurement focus and basis of accounting used in the governmental fund statements and the Agency-wide statements, certain financial transactions are treated differently. The basic financial statements contain full reconciliation of these items. The differences result primarily from the economic focus of the Statement of Activities, compared with the current financial resources focus of the governmental funds.

A. Total fund balances of governmental funds vs. net assets (deficit) of governmental activities:

Total fund balances of the Agency's governmental funds differ from "net assets (deficit)" of governmental activities reported in the Statement of Net Assets (Deficit). This difference primarily results from the additional long-term economic focus of the Statement of Net Assets (Deficit) versus the solely current financial resources focus of the governmental funds Balance Sheets.

B. Statement of Revenues, Expenditures and Changes in Fund Balance vs. Statement of Activities:

Differences between the governmental funds Statement of Revenues, Expenditures and Changes in Fund Balance and the Statement of Activities fall into one of the three broad categories. The amounts shown below represent:

1. Long-term revenue differences:

Long-term revenue differences arise because governmental funds report revenues only when they are considered "available", whereas the Statement of Activities reports revenues when earned. Differences in long-term expenses arise because governmental funds report on a modified accrual basis, whereas the accrual basis of accounting is used on the Statement of Activities.

2. Capital related differences:

Capital related differences include the difference between proceeds for the sale of capital reported on governmental fund statements and the gain or loss on the sale of assets as reported on the Statement of Activities, and the differences between recording an expenditure for the purchase of capital items in the governmental funds statements and depreciation expense on those items as recorded in the Statement of Activities.

3. Long-term debt transaction differences:

Long-term debt transaction differences occur because both interest and principal payments are recorded as expenditures in the governmental funds, whereas interest payments are recorded in the Statement of Activities as incurred, and principal payments are recorded as a reduction of liabilities in the Statement of Net Assets (Deficit).

**NOTE 3 -DEBT**

The Agency currently has an outstanding note payable to GF Management, Inc. The \$100 note is payable together with interest at a rate of 7% per annum compounded annually with interest payable at maturity. The maturity date of this note is May 31, 2014.

**CITY OF DUNKIRK INDUSTRIAL DEVELOPMENT AGENCY**  
**NOTES TO FINANCIAL STATEMENTS**  
**YEAR ENDED DECEMBER 31, 2011**  
**(Continued)**

---

**NOTE 4 - CONTINGENCIES**

**A. Litigation**

The Agency is party to various legal proceedings which normally occur in governmental operations. The Agency believes that its ultimate liability, if any, in connection with these matters, will not have a material effect on the Agency's financial condition or results of operations.

**NOTE 5 - EVALUATION OF SUBSEQUENT EVENTS**

The Agency has evaluated subsequent events through February 28, 2012, the date which the financial statements were available to be issued. No significant subsequent events have been identified that would require adjustments of or disclosure in the accompanying financial statements.

## INSTRUCTIONS FOR COMPLETING SCHEDULE OF SUPPLEMENTAL BOND/NOTE AND LEASE INFORMATION FOR INDUSTRIAL DEVELOPMENT AGENCIES AND AUTHORITIES

The Supplemental Information follows the Maturity Schedule and is required to be completed for each project begun in 1990 and thereafter for which debt was issued, outstanding or retired during the fiscal year or any straight lease agreement which was entered into since 1990 and thereafter and is outstanding. (Photocopy additional sheets if needed).

1. On the Schedule of Supplemental Information, the name of the project, the name of the project owner, and the project owner's address must be completed for all projects begun in 1990 and thereafter. This information should be current and reflect any changes since the project was undertaken. The project code must be established and reported for all projects started in 1998 and thereafter. Refer to separate instructions for coding structure for IDA project identification numbers. This code should also be used to identify the project in reporting project activity to other state agencies or departments.
2. The project purpose code should be taken from the list on the top of pages 11 and 12 of the annual report forms. The definitions for the codes follows these instructions.
3. Total Project Amount is the cost of the entire project.
4. Benefitted Project Amount is Total Project Amount less any project costs that will not result in an IDA-derived benefit. For example, items included within the project amount that are not sales taxable (e.g., service, such as legal, architectural, engineering) or do not result in an increase in the real property assessment.
5. Bond or Note Amount is the original principal amount of bond or note issued.
6. Show the federal tax status of each bond or note using the codes on top of page 11.
7. Not-for-Profit Organization status of project occupant should be indicated by putting a "yes" in the not-for-profit column.
8. New Tax Revenue If No Exemptions Granted refers to the amount of tax revenues a project would generate if the project did not receive any tax exemptions.
9. Method of Financial Assistance Other Than Tax Exemptions or other economic benefits-can be detailed on another page if necessary.
10. Tax exemptions refer to the total dollar amount of exemptions received during the year for which the report is being completed. For real property tax exemptions, please indicate the total amount of taxes for which the project would have been liable if the IDA was not involved. Do not deduct amounts paid pursuant to any payment in lieu of taxes (PILLOT) agreements. Real property tax exemptions must be shown for all projects including those to which PILLOTS are made.
11. Total Real Property Tax Exemptions Net of RPTL section 485-b Exemptions is the amount of real property tax exemptions the project received as a result of IDA status, i.e., deduct from the IDA exemption the amount of any real property tax exemptions the project would have received, irrespective of IDA involvement.
12. Each project where a PILLOT is made must be listed on pages 11b and 12b.
  - code 1 (all local units); -- code 2 (selected local units)
13. FTE Jobs Created and Retained-report the number of full time equivalent jobs.

### PROJECT PURPOSE CODE DEFINITIONS

**Services:** This category includes establishments primarily engaged in producing a wide variety of services for individuals, business and government establishments and other organizations. Hotels and other lodging places, recreational services, health, legal, engineering, and other professional services; educational institutions, membership organizations, and other miscellaneous services, are included.

**Construction:** This category includes establishments primarily engaged in construction. Three broad types of construction activity are covered: (1) building construction by general contractors or by operative builders; (2) heavy construction other than building by general contractors and special trade contractors; and (3) construction activity by other special trade contractors.

**Agriculture, Forestry and Fishing:** This category includes establishments primarily engaged in agricultural production, forestry, commercial fishing, hunting and trapping and related services.

**Wholesale Trade:** This category includes establishments or places of business primarily engaged in selling merchandise to retailers; to industrial, commercial, institutional, farm, construction contractors, or professional business users; or to other wholesalers; or acting as agents or brokers in buying merchandise for or selling merchandise to such persons or companies.

**Retail Trade:** This category includes establishments engaged in selling merchandise for personal or household consumption and rendering services incidental to the sale of the goods. In general, retail establishments are classified by kind of business according to the principal lines of commodities sold (groceries, hardware, etc.), or the usual trade designation (drug store, cigar store, etc.). Some of the important characteristics of retail trade establishments are: the establishment is usually a place of business and is engaged in activities to attract the general public to buy; the establishment buys or receives merchandise as well as sells; the establishment may process its products, but such processing is incidental or subordinate to selling; the establishment is considered as retail in the trade; and the establishment sells to customers for personal or household use.

**Finance, Insurance and Real Estate:** This category includes establishments operating primarily in the fields of finance, insurance and real estate. Finance includes depository institutions, non-depository credit institutions, holding (but not predominantly operating) companies, other investment companies, brokers and dealers in securities and commodity contracts, and security and commodity exchanges. Insurance covers carriers of all types of insurance, and insurance agents and brokers. Real estate includes owners, lessors, lessees, buyers, sellers, agents, and developers of real estate.

**Transportation, Communications, Electric, Gas and Sanitary Services;** This category includes establishments providing, to the general public or to other business enterprises, passenger and freight transportation, communications services, or electricity, gas, steam, water or sanitary services.

**Other Categories:**

- Exempt Facility
  - Water and sewage facilities
  - Local furnishing of electric energy or gas
- Docks, wharves and public transit
  - Exempt sports facility
- Solid waste and resource recovery
  - Pollution control
- Civic Facility-- Facility owned or occupied by a nonprofit organization

**Manufacturing:** The manufacturing category includes establishments engaged in the mechanical or chemical transformation of materials or substances into new products. These establishments are usually described as plants, factories, or mills and characteristically use power drive machines and materials handling equipment. Establishments engaged in assembling component parts of manufactured products are also considered manufacturing if the new product is neither a structure nor other fixed improvement. Also included is the blending of materials, such as lubricating oils, plastic resins, or liquors.

REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON  
COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL  
STATEMENTS PERFORMED IN ACCORDANCE WITH *GOVERNMENT  
AUDITING STANDARDS*

February 28, 2012

Board of Directors  
City of Dunkirk Industrial Development Agency  
342 Central Avenue  
Dunkirk, New York 14048

We have audited the financial statements of the governmental activities, the business-type activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of the City of Dunkirk Industrial Development Agency ("DIDA") as of and for the year ended December 31, 2011, which collectively comprise the City of DIDA'S basic financial statements and have issued our report thereon dated February 28, 2012. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States.

Internal Control Over Financial Reporting

In planning and performing our audit, we considered the City of DIDA's internal control over financial reporting as a basis for designing our auditing procedures for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of City of DIDA's internal control over financial reporting. Accordingly, we do not express an opinion on the effectiveness of the City of DIDA's internal control over financial reporting.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis.

Our consideration of internal control over financial reporting was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over financial reporting that might be deficiencies, significant deficiencies, or material weaknesses. We did not identify any deficiencies in internal control over financial reporting that we consider to be material weaknesses, as defined above.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether City of DIDA's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

This report is intended solely for the information and use of management, City Council, others within the entity, Board of Directors and federal awarding agencies and pass-through entities and is not intended to be and should not be used by anyone other than these specified parties.

*Johnson, Mackowiak & Associates, LLP*

JOHNSON, MACKOWIAK AND ASSOCIATES, LLP
